

ARDY DIAZ

Senior Programmer

WORK EXPERIENCE

JR. WEBSITE DEVELOPER

PINKLESTAR INC. OCTOBER: 2015 - FEBRAURY: 2016

- Ensuring that the website functions correctly across different web browsers (e.g., Chrome, Firefox, Safari).
- Collaborated with the marketing team to design and publish new web content
- Creating and maintaining documentation for codebases, custom themes, plugins, and website functionalities.
- Designing and developing custom WordPress themes from scratch to match specific design requirements.

JR. WEBSITE DEVELOPER

MPOTECH DIGITAL INC. FEBRAURY: 2016- MARCH: 2019

- Optimized database queries using Query Builder for faster data retrieval, reducing load time by 30%.
- Implemented a reusable API service class to manage multiple endpoint integrations, including error handling and token refresh logic.
- Developed dynamic, secure web applications using CodeIgniter's MVC architecture, ensuring scalability and maintainability.
- Integrated Laravel Sanctum and Passport for secure user authentication in SPA and mobile applications.
- Developed interactive, real-time features using Vue Js and React

JR. WEBSITE DEVELOPER

ZAPPORT SERVICES INC. MARCH: 2020 - MARCH: 2023

- Design and optimize relational databases using MySQL, PostgreSQL
- Develop internal APIs to support frontend and mobile applications.
- Manage deployment processes, including setting up CI/CD pipelines using tools like GitLab CI, or GitHub Actions.
- Implemented Laravel Livewire to create dynamic, reactive components for real-time updates without extensive JavaScript.
- Integrated Bootstrap with JavaScript libraries like Select2, Chart.js, and FullCalendar for advanced UI functionality.
- Integrated modern JavaScript frameworks like Vue.js and React alongside Bootstrap to enhance frontend interactivity.
- Used Webpack and Vite for asset bundling and live reloading in frontend development workflows.

SR. WEBSITE DEVELOPER / PROGRAMMER (Present)

WOODFIELDS CONSULTANTS INC. MAY: 2023

- Developed full-stack applications using Laravel, Vue Js, React Js, and Bootstrap, creating responsive and interactive user interfaces.
- Implemented advanced API authentication and authorization mechanisms using Laravel Passport, Sanctum, and OAuth 2.0
- Integrated third-party APIs Microsoft 365 and Configured Azure Active Directory (AAD) to register applications and manage API permissions (delegated and application-level).
- Implemented Single Sign-On (SSO) with Microsoft Accounts using Laravel Socialite or custom OAuth flows.
- Built custom API clients using Guzzle in Laravel for secure and efficient requests.
- Debugged API interactions with tools like Postman, Microsoft Graph Explorer, and Laravel Telescope.
- Streamlined database operations using advanced Eloquent ORM techniques, including dynamic relationships, query scopes, and data transformations
